The image is a composite of three screenshots. The top screenshot shows the Docker Desktop 'Build' tab with a progress bar and a list of build steps. A blue tooltip indicates 'cd getting-started' and 'docker build -t docker101tutorial'. The middle screenshot is a terminal window showing the output of a 'docker build' command, listing various layers and their sizes. The bottom screenshot is a web browser showing the Docker Hub page for 'uifd/ui-for-docker', which is marked as deprecated and suggests using 'portainer/portainer' instead. The page includes a description, tags, and a pull command.
